For a good shave go to JUDY'S Barbershop. 22-1 w.

Remember the excursion Sunday.

The excursion train Sunday will start at 7 a. m.

The thermometer has been running up to 80 degrees above zero for the last few days.

Mr. Morrow the accommodating hack man will ply his coaches between the two towns and hot springs.

Mr. Clark's business house in East Las Vegas is progressing finely, it will soon be ready for the roof.

Work has commenced on the foundation for the Episcopal church, under the superintendence of Mr. Wheelock, the architect.

These are dog days and locals of interest are growing scarce. It is all that the average human being can do to walk at a pace *a la snail*, and to see half way across one of these narrow streets with any distinctness.

Messrs. Kelley and Todd, Dentists, insert their card in another column. These gentlemen have their office in the Bacon building and are already receiving a large patronage. They are experienced dentists and masters of their profession.

We call attention to the advertisement of the Grand View Hotel in this issue. This house owing to recent additions is now very large and commodious. The rooms are new, neat and clean with perfect ventilation. Dr. J. H. Sutfin is proprietor of the house and T. A. Jones formerly of the Railroad eating house at Lakin is in charge of the eating department. He never fails to give satisfaction. It is receiving a large share of the public patronage.

NOTICE TO TRAVELLERS!!!

I have leased, what was formerly known as, the Jewett House, situated on the South side of the Plaza, in Las Vegas N. M., and am now prepared to furnish first-class accommodations to the traveling public. I have had the Hotel thoroughly cleaned and renovated from cellar to garret. The furniture is all new and the tables will be abundantly supplied with the best that town and county will afford.

I have a Livery Stable and Corral in connection with the Hotel, and the only bus line in the city. My bus line will carry passenger from the Depot to any part of the city, and passengers stopping with me, can always find ready means of visiting the Hot Springs with new vehicles and safe teams. The Stage offices of the Santa Fe line are connected with the hotel buildings, and persons stopping with me, who wish to go further west can take the stage at the door of the Hotel.

Large rooms on first floor for use of Commercial Agents.

GEORGE PARKER.
Proprietor.

The bids for rebuilding and repairing Frank Chapmans building, on the plaza were opened last evening, bids being submitted by a number of contractors. The house occupies a front of 95 feet on the plaza by about 80 feet back. Some of the interior walls will be removed increasing the capacity of the rooms. The old part will receive a new tin roof and the gallery along the plaza, will also be turned. The height of the front will be increased nine feet by the addition of a handsome cornice. The plans were drawn by Chas. Wheelock who will superintend the work. The contract was awarded to Lockhart & Co.

Mrs. Conklin's school on the east side has now been going on two weeks and has been quite successful. The attendance has been fair and the order observed, and the consequent progress have been rather better than could have been expected, considering the limited room and scant furniture. Many of the scholars have been without proper books but this want is now supplied and everything may be expected to progress favorably in the future.

Died.

On Thursday August 28th 1879 at La Cueva, N. M. Hon. Vicente Romero, at the age of 57 years 4 months and 22 days. The funeral will take place to-morrow at the Chapel of San Rafael at La Cueva, at 10 o'clock a. m.

Don Vicente Romero was one of the old residents and one of the most prominent citizens of Mora county and the Territory. He was a man of wealth and influence and occupied many offices of trust under the Territory and county. He owned large tracts of land in the fertile valley of Mora. His ranch at La Cueva is one of the most productive in the Territory and is noted for the excellence of the wheat grown there. This was the home of Don Vicente where he lived surrounded by his family and the comforts of a wealthy home. He had large interests in sheep and cattle and with his son, Hon. Rafael Romero, carried on an extensive trade in flour and grain. During the past year the latter has conducted this business on his own account.

In politics and questions of public interest Mr. Romero always took an active part. He was Probate Judge of the county for many years and represented it in both branches of the Territorial legislature for several terms. He was always counted the strong pillar of his party in Mora county and whichever way he led the county would follow. In the death of this honored citizen, his family have not only lost their protector and provider, but the Territory one of its ablest and best citizens. His death will carry sorrow to the hearts of his many friends throughout New Mexico.

LOTS FOR SALE AT THE HOT SPRINGS OF NEW MEXICO.

The completion of the Atchison Topeka & Santa Fe Railroad to Las Vegas and the Hot Springs and the fact that they, the greatest corporation of the age, have recently become the owners of these Springs, their policy being to spare no money to make the ground attractive, and to furnish ample Hotel and Bath accommodations to meet the demands of their patrons. By their grand system of advertising, and the liberal spirit that they have always shown toward the traveling public, makes it an accomplished fact that the Hot Springs of New Mexico is destined to become the greatest sanatorium and tourist resort in America.

The grounds at the Springs have been laid out in lots and parks to suit the wants of the home, pleasure, and health seekers, the capitalist, and all who want a desirable place to live where health and good society can be obtained. These lots both for business and residence are now offered for sale at a very reasonable price. These

Remarkable Springs

although until within a few years comparatively unknown to the outside world, have a local reputation which antedates the present century, and from time immemorial have been resorted to as the "Great Balm" by the natives of this Territory. The mineral constituents of these waters closely resemble those of the Hot Springs of Arkansas, and the famous Thermal Springs of Europe. The Pellers in the valley of the Rhine, and the Pommers, the popular resort of France, situated in the valley of the Vosges Mountains, and the Teux in the picturesque valley at the foot of the pass over the Gemm Mountains. At these springs thousands of invalids visit annually, and are

Cured of the Diseases of the Blood

Skin, stomach, paralysis, gout, rheumatism, gravel, Catarrh, and female complaints by both in and drinking the water. People visiting the Hot Springs of New Mexico have been cured of all of the above diseases, and even more. It is the invalids' paradise. The great sanatorium of the world for lung diseases. The atmosphere is clear and dry, and pulmonary and tubercular complaints are scarcely known.

The proportion of deaths from consumption here being smaller than in any state or territory in the Union. The mean annual temperature at these Hot Springs is 59 o Fahr, being at an elevation of nearly 6460 feet. Summers are cool; nights from 55 o to 60 o., and the winters are remarkably mild and dry, the temperature seldom falling below the freezing point. The rainy season is in July and August. These Springs are located in about 55 degrees of north latitude, which makes the climate mild and temperature unmarked by extremes either of heat or cold. The bracing air, its mountains, the gorgeous picturesqueness of its canyons and valleys combine to make it one of the most pleasant resorts for tourists. Only 36 hours ride from St. Louis. After leaving La Junta, Colorado, until reaching the Springs the traveler sees spread before him a vast panorama of mountain, valley, and rocky canyons, stretching hundreds of miles. No better place can be found for the stock-grower to live and raise his family than at the springs.

With all of the above advantages the dullest of comprehension cannot fail to see the advantage of an early investment in property in and about the Springs, as there are but a few hundred lots for sale, and they will soon largely enhance in value from the prices now asked.

A Word to the wise is Sufficient.
